

THE SCHOOL OF ANGELS

healing arts for an evolving world

ANGELIC CHAKRA ASCENSION WORKSHOP

Michela D'Addario, Quantum Emotional Healing Practitioner

and

SHAMANIC MUSIC AND MOVEMENT

Ian Cameron, Tai Chi Martial Arts Master

The time is ripe now for us to access our Inner Guardian like never before. New world energy depends on us easily and effortlessly accessing our inner teacher and Wise One.

Are you interested in enhancing your intuitive, creative, spiritual and energetic power?

In this full 2 day workshop we will activate your Inner Guardian from the inner ground up, to higher levels of energetic vibration, with the journey culminating in the 12th Angelic Chakra of the Heart: The meeting place of Heaven and Earth...Universal Divine Consciousness and Gaia Consciousness.

Commencing with the inspiring and moving shamanic sounds of Ian Cameron we will experience an insightful and empowering journey through each inner doorway of light, where we will clear the low vibration past life karmic 'emprints' we have specifically come into this life to clear and discover the incredible blueprint of angelic light within us.

By linking up and ascending through to the 12th Angelic Chakra we create a more tangible and sacred place within to meet with our Higher Self and our Akashic Soul Book, in turn enabling us to access more of our destined creative and healing potential.

This is a beautiful workshop to give to your Higher Self... profound time and awareness of the Self waiting patiently to be truly empowered and liberated as your Guide and Guardian.

It also gives you a special opportunity to participate with a loved one and spiritually and energetically evolve together!

There is so much wonderful and wise information about the Chakras our ancestors and teachers have given us and, yet just like us, our chakras are evolving! This experiential workshop shall be encouraging you to open to new information about your energetic power centres and to honour your personal journey and experience of each of them.

"an earth angel is simply a person who has cleared karmic emotional layers so their inner angel light can shine out like a beacon to touch life in a way that leaves it better. We all have that potential within us, waiting to come alive" Michela

Friday 19th and Saturday 20th April 2013, 9am-7pm. Held at the sacred and magical [Coolah Place](#), 80 Coolah Place, Cooribah. Scrumptious Lunch Provided.
